Socially responsible communication. Establishing and maintaining relationships with target groups. Information dissemination of social value through social networks.	2		2				4	6	Preparation of social business communication strategy.
Total	24		24				48	82	

Assessment strategy	Weight, %	Deadline	Assessment criteria
Preparation of and oral presentation of social business project in groups	40	Over the course of seminars	<p>10 (excellent) The student demonstrates exceptional theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. Suggested solutions and ideas match the assignments, stand out as innovative, are delivered in a concise and coherent manner, and are well-supported by empirical evidence.</p> <p>9 (very good) The student demonstrates solid theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership and venture development over the course of entrepreneurial project development and presentations. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. Suggested solutions and ideas match the assignments, are innovative, delivered in a concise and coherent manner, and are well-supported by empirical evidence.</p> <p>8 (good) The student demonstrates good, higher than average, theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. Suggested solutions and ideas match the assignments, delivered in a concise and coherent manner, and are supported by empirical evidence, with minor gaps in analysis, argumentation, and (or) consistency.</p> <p>7 (average) The student demonstrates fair theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The performed analysis is detailed, systematic,</p>

			<p>and well-substantiated. Theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. Suggested solutions and ideas match the assignments, delivered in a concise and coherent manner, and are supported by empirical evidence, with gaps in analysis, argumentation, and (or) consistency.</p> <p>6 (satisfactory) The student demonstrates weaker than average theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. Analysis has been performed, theoretical knowledge and tools have been applied. Suggested solutions and ideas do not match the assignments precisely, with gaps in analysis, argumentation, and (or) consistency.</p> <p>5 (passing) The student demonstrates knowledge and competencies that meet the minimum in requirements covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. Analysis has been performed, theoretical knowledge and tools have been applied. Suggested solutions and ideas do not match the assignments precisely, the performed analysis is not systematic, with notable gaps in rationale, argumentation, and (or) consistency.</p> <p>4; 3; 2; 1 – the minimum requirements are not met; some team and (or) individual assignments and (or) the project have not been submitted.</p>
Written exam (in Moodle)	60	The end of the semester	<p>4 open-ended questions are in the exam. Students must respond according to the set time in the Moodle. Assessment:</p> <p>10 (excellent) The student demonstrates exceptional theoretical knowledge and competencies covering the concept of social entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The project paper and its parts comply with the requirements. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. The project is presented in a concise and coherent manner, covering all required topics, is well-substantiated and has a high potential for implementation.</p>

		<p>9 (very good) The student demonstrates solid theoretical knowledge and competencies covering the concept of entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The project paper and its parts comply with the requirements. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. The project is presented in a concise and coherent manner, covering all required topics, is well-substantiated and has a high potential for implementation.</p> <p>8 (good) The student demonstrates good, higher than average, theoretical knowledge and competencies covering the concept of entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The project paper and its parts comply with the requirements. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. The project is presented in a concise and coherent manner, covering all required topics, is well-substantiated and has some potential for implementation.</p> <p>7 (average) The student demonstrates average theoretical knowledge and competencies covering the concept of entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The project paper and its parts comply with the requirements. The performed analysis is detailed, systematic, and well-substantiated. Appropriate theoretical knowledge and relevant tools have been applied, the interrelations between elements are indicated. The project is presented in a concise and coherent manner, covering all required topics, is well-substantiated and has some potential for implementation.</p> <p>6 (satisfactory) The student demonstrates weaker than average theoretical knowledge and competencies covering the concept of entrepreneurship, entrepreneurship types, business model generation and development, an entrepreneurial process and its elements, human resource, leadership, legal aspects of entrepreneurial project and venture development over the course of entrepreneurial project development and presentations. The project paper and its parts comply with the requirements. The performed</p>
